

How to Install Hubuntu 10.1 ?

1. Download the .iso image from hubuntu-af.org and write it on a DVD or make a USB startup disk.
2. Boot the system from disk.
3. Write install for direct installation or press Enter for live mode.
4. Click on the install icon on the Desktop in live mode.
5. The installation procedure is like a normal installation of Ubuntu.

Important

Username: hubuntu

Password: hubuntu-af.org

After installation, for more information you can write `hubuntu` in the terminal or read the files in Documents.
